Portfolio:

PROFESSIONAL SUMMARY

B.E. Electronics and Telecommunication graduate with hands-on experience in React.js frontend development, MERN stack projects, REST API integration, responsive dashboards, and role-based web applications. Built full-stack projects using React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT authentication, protected routes, Socket.IO, OTP verification, and MVC-style backend structure. Seeking an entry-level Frontend / React Developer role.

TECHNICAL SKILLS

- **Languages & Markup:** JavaScript , HTML, CSS
- **Frontend:** ReactJS, Tailwind CSS, Third-party libraries: React Router, Redux
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Socket.io, MVC Architecture
- **Database:** MongoDB, Mongoose
- **Tools:** Git, GitHub, Postman, VS Code, MongoDB Atlas
- **Concepts:** CRUD Operations, Role-Based Access Control, MVC Architecture, Authentication & Authorization (JWT), Real-time Communication (Socket.io)
- **Development Focus:** Responsive Design & Single-Page Applications (SPA)

EXPERIENCE

➤ Freelance MERN Stack Developer

Alumni Connect Platform (Client Project) + Buildx India 2026

Mar 2026 - Apr 2026

- Designed and developed a role-based Alumni Connect platform for Students, Alumni, and Administrators using React.js, Tailwind CSS, Flask/Python, and MongoDB.
- Delivered the application as a freelance client project by translating business requirements into a scalable full-stack solution with separate user workflows and dashboards.
- Implemented secure authentication and authorization using JWT HttpOnly cookies, protected routes, session persistence, and role-based access control across multiple user portals.
- Developed admin management features including alumni verification, student management, content moderation, dashboard analytics, and platform monitoring.
- Built mentorship and networking functionalities such as mentor recommendations, mentor request workflows, alumni discovery, and Socket.IO-powered real-time messaging between students and alumni.
- Integrated profile management, forums, job postings, chat modules, mentorship tools, and AI-powered features within a unified application ecosystem.
- Delivered the platform as a freelance client solution while continuously enhancing and showcasing it during the BuildX India 2026 Hackathon, where it secured a Top 20 position among 400+ participants.

➤ MERN Stack Developer Intern

Jyesta Pvt. Ltd. | 2 Months

Oct 2025 - Dec 2025

- Developed and delivered a full-stack moving-service management platform for an international client using React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT authentication, and Socket.IO.
- Built complete workflows for customers, administrators, and student workers covering quote requests, booking management, workforce onboarding, job assignment, invoice generation, and move lifecycle tracking.
- Implemented secure authentication using JWT HttpOnly cookies along with OTP-based verification through Twilio SMS and email verification/password recovery using Nodemailer
- Designed and developed REST APIs for authentication, quotes, invoices, jobs, student management, notifications, and customer support with role-based access control.
- Created administrative operations modules for quote filtering, pricing estimation, invoice generation, student approval controls, workforce allocation, and multi-stage move progress tracking.
- Integrated real-time Socket.IO events for quote updates, student job acceptance, workforce status synchronization, and customer-facing move progress notifications
- Collaborated on debugging, testing, API integration, and feature enhancements to ensure reliable platform performance and maintainability.

PROJECTS

➤ Food Recipes Application (Minor Project)

- Built a recipe browsing platform using React.js, Node.js, and Express.js with a focus on performance and user experience
- Integrated a dataset containing approximately 14,000 Indian food recipes and developed APIs for efficient data retrieval
- Implemented search and filtering functionality based on recipe names and categories to improve content discoverability.
- Optimized data rendering and UI responsiveness to ensure smooth navigation across large datasets.

EDUCATION

➤ B.E in Electronics And Telecommunication

CGPA: 7.66

Pimpri Chinchawad College of Engineering, Pune.

Jun 2019 - Jun 2023

➤ HSC (12th)

Percentage: 52.7 %

Rajmata Jijau Shikshan Prasarak Mandal's ACS College, Landewadi Pune.

Jun 2018 - May 2019

➤ SSC (10th)

Percentage: 68.8 %

Sant Dnyaneshwar Secondary school, Bhosari Pune 39, Pune

May 2016 - May 2017

TRAINING

➤ MERN Stack Development Program

SpeedUP Infotech, Pune | 8 Months

July 2023 - Feb 2024

- Learned full-stack development using React, Node.js, Express, and MongoDB
- Built responsive web applications and single-page applications (SPA)
- Practiced API integration, form handling, and state management

CERTIFICATION

- MERN Stack Development Training – SpeedUp Infotech
- Full-Stack Web Development Training – Jyesta Pvt. Ltd.
- Full-Stack Internship Certificate – Jyesta Pvt. Ltd.
- BuildX India Hackathon 2026 - Built and showcased Alumni Connect Platform; secured a Top 20 position among 400+ participants.

LANGUAGE

- English
- Hindi
- Marathi

HOBBIES

- Exploring new technologies and software tools
- Solving logic puzzles and brain teasers
